ABOUT ME

Telecommunications and Informatics Engineer, focused on problem-solving and delivering results. I have experience in Linux systems, networking and infrastructure to support business operations and troubleshoot technical problems, as well as a strong background in cybersecurity. I also have skills in programming from low level systems to the web, automation.

I have a strong interest in innovation and technology and how technology shapes the world. I am committed to continuous growth, adding value, and being part of a team where I can apply solutions, develop my skills, and contribute.
